

REQUEST FOR QUALIFICATIONS FOR
CONSULTING ENGINEERING SERVICES
FOR THE DOUGLAS-RAPIDS 230 KV
TRANSMISSION LINE PROJECT

In accordance with the requirements of RCW 39.80, The Public Utility District No. 1 of Douglas County, Washington invites statements of qualifications from nationally recognized independent consulting engineering firms interested in providing the following services:

All engineering services described in Request for Qualifications 10-13-D for the design and construction of a 230 kV transmission line. The services may include: development of project schedules, transmission line design, development of material specifications, preparation of bid documents, bid review, construction supervision, construction inspection, commissioning and other various items.

Engineering firms responding to this notice must have proven capabilities in transmission line design and be located within 400 miles of Douglas County PUD's office in East Wenatchee. Responding firms should submit a letter of interest, a statement of qualifications, a list of related projects, contact information for references, and literature describing the firm's general activities. Additional information and further details will be supplied by:

Mr. Jerry Kyle, Distribution Engineering Supervisor
PUD No. 1 of Douglas County
1151 Valley Mall Parkway
East Wenatchee, Washington 98802

Statements of qualifications must be submitted to Douglas PUD by June 7, 2010.
